BenQ digital signage brochure 2020

Reality just got more interesting

Shape how people see the world around them with visuals so stunning, they won't believe their eyes. BenQ's wide selection of digital signage allows you transform any kind of space into an immersive audiovisual experience. Combine any of BenQ's smart signage and displays—Pantone Validated, 4K, stretched, or interactive—to create eye-catching installations that fit any environment or use BenQ's video wall solutions for larger-than-life displays.

Unparalleled color accuracy

BenQ is the only digital signage provider in the market that offers end-to-end color fidelity with its Pantone Validated content creation and display system. Through this system, artists are guaranteed that the color of their designs are exactly the same whether they're viewing it through their BenQ production monitor or smart signage.

* Pantone mode is available on the SL series. For the full list of Pantone Validated monitors, visit the BenQ website.

Visuals bursting with vivid color

Rely on BenQ's color expertise to give your audience an unparalleled visual experience every time. Our full portfolio of smart signage guarantees dynamic colors every time. BenQ has also developed specific color modes for the Pantone Validated Smart Signage series that perfectly show off any type of content—from high-resolution photographs and illustrations to rich and vibrant 4K videos.

There's always more to see

More than just your regular digital displays, BenQ's robust portfolio of smart signage allows you to easily customize the mood of any space—large or small, indoors or alfresco, dim or extra bright. With displays that come in a wide array of sizes, frames, and screen finishes, you are free to showcase your content any way you want to.

Awards

2020 Best of Show Infocomm Award Pantone Validated Smart Signage Series

SL6502K

Precise and vivid colors for fashion displays with flair

Whether it's for a fall or spring collection, BenQ lets you create an in-store experience like no other. With the SL series, the world's first and only Pantone® Validated digital signage, fashion houses can easily curate the look and feel of their stores by allowing them to display their campaigns in 4K ultra-high definition resolution with scientific color accuracy. Paired with our smart stretched displays, they provide a full, immersive visual experience that both captivates and engages customers.

Pantone Validated Smart Signage Series

SL5502K / SL6502K / SL8502K

Available sizes: 43", 55", 65", 75", and 85"

End-to-end color fidelity

Experience true, flawless color fidelity from design to distribution with BenQ's Pantone Validated signage solutions. Create color-consistent custom content using X-Sign Designer's Pantone color picker and display it on our SL series, the world's first and only Pantone Validated digital signage.

MacBook color matching

Mac-based designers no longer have to recalibrate the colors of their content. The image quality provided by M-Book mode stays true to the visuals displayed on their MacBook.

4K UHD clarity

Our display's 4K UHD resolution produces pictures so vivid that customers are able to see every flourish and detail of your designs.

Life-like visuals

With 4K UHD resolution and screens this large, you can treat your displays as moving fashion campaigns. It's a fashion show right inside your store.

* Supported by: SL7502K and SL8502K

SI 5502k

SI 8502K

24/7 non-stop operation

Each panel is designed for 50,000 hours of use. They guarantee long service life and minimal to zero downtime.

Smart Stretched Display Series

BH2801

Available sizes: 24", 28", 35", and 38"

Aesthetics that fit

BenQ smart stretched display's sleek design matches any store's chic interiors. Its high-performance, anti-reflective glass guarantees clear, vibrant images every time.

Curate once, the rest will follow

Ensuring that all your boutiques stick to the motif is easy. With the X-Sign content management system, you can be sure that only your campaigns are playing on each and every display across all your stores. You always get uniform messaging with zero fuss.

BH2801

Designed for creative installations

Our smart signage support both portrait and landscape installations, while our smart stretched displays can be combined to create unique and interesting canvases. These offer designers the flexibility they need to craft engaging retail displays that maximize every inch of their store's physical space.

PL5502

Bigger, bolder visuals for stronger brand awareness

It's not that hard to get everyone looking. Show off your apparel with BenQ displays. Our Video Wall series lets you build larger-than-life video walls that effectively advertise your best items in stock. On the other hand, our 4K Smart Signage and Smart Stretched Display series allow you to show off content in a variety of configurations, allowing you to create the perfect visuals that are 100% bound to catch attention.

Video Wall Series

PL5502

Available sizes: 49" and 55"

Bezels so thin, they're barely there

At 0.44 mm bezels, our video wall displays have some of the skinniest bezels in the industry, making them perfect for video walls and side-to-side installations that deliver seamless, distortion-free images.

Stunning color consistency

Our video walls are expertly color calibrated so you always get one full image with accurate and consistent colors that span from corner to corner.

PL 550

Daisy-chaining with 4K clarity

Our razor-thin displays allow you to daisy chain a 2x2 video wall while still giving you unmatched 4K UHD clarity.

4K Smart Signage Series

ST4302 / ST8602

Available sizes: 43", 55", 65", 75", and 86"

True-to-life aspect ratio

Our wide array of screen sizes allows you to either use one large signage or create a video wall through X-Sign to showcase designs in full scale, giving shoppers a life-size glimpse of every outfit.

Convenient audiovisual playback

Our smart signage has a built-in player and speakers, making it ideal for quick and easy playback of in-store ads and announcements. You can play audiovisual content locally through an attached storage device, over the internet with X-Sign, or any compatible content management system.

51860.

\$14302

Smart Stretched Display Series

BH3801D

Available sizes: 24", 28", 35" and 38"

Double-sided for double impact

Catch shoppers' attention whichever side of the rack they're on. Our double-sided smart stretched displays make full use of your shelves, allowing you to convert unutilized space into eye-catching mini billboards for your products.

13801D

For ready-to-serve menus and promos

Menu, please! With BenQ 4K smart signage and X-Sign, it's easier for your customers to know what they want for a quick brunch or dinner. X-Sign's simple content creation and delivery system lets you update your menus any time of the day. And whether it's a new set meal or a seasonal drink, promos also get easier to push with just a few clicks. You can even have smart interactive displays, allowing customers to freely order at their own convenience.

Real-time menu updates

Easily update the menus to all your branches with just a few clicks on our X-Sign content management system.

Hassle-free maintenance

Your staff doesn't need to visit every branch to check device performance or update firmware. They can just log in to our device management solution (DMS) and do so from

4K Smart Signage Series

ST4302 / ST5502

Available sizes: 43", 55", 65", 75" and 86"

Mouthwatering 4K UHD

Tingle those taste buds with gastronomic visuals so vivid they're good enough to eat.

Visible content in any lighting

The brightness of our smart signage goes up to 450 nits and come with a matte finish. This ensures that your menus never get drowned out by glare and strong ambient light.

Smart Interactive Signage Series

Available sizes: 43", 49" and 55"

Tap-to-engage

Engage your customers through IR touch technology. Our end-to-end interactive system—X-Sign and the IL series—allows you to easily create and display exciting interactive content with

Content in any orientation

Don't get stuck in one dimension. Whether your designs are made to go from top to bottom or left to right, you can install our smart interactive signage vertically or horizontally to easily match your content.

BH3801D

Make your point-of-purchase signs pop!

What's fresh? What's hot? And what's on sale? Let shoppers know the best deals no matter where they are in the supermarket. BenQ has the most comprehensive fleet of smart stretched displays, with an assortment of sizes and includes touch and non-touch, single and double-sided, glass and non-glass models. With BenQ displays on every shelf and aisle, your shoppers always get an eyeful of what's available without sacrificing product space. For larger, more dynamic visuals, you can use BenQ 4K smart signage to give your in-store promos the attention they deserve.

Easy content creation and playback

Our X-Sign system simplifies in-store content creation and delivery by giving you all the tools you need to design and broadcast content to all your BenQ displays—even for specially formatted stretched displays. And since both our smart signage and smart stretched displays come with built-in media players and speakers, you can instantly show off your content without using additional peripherals.

Flexible, streamlined installation options

Go horizontal or go vertical. Our smart stretched displays and smart signage* offer the flexibility to show content in any orientation. We offer optional adjustable mounts and power hubs to ensure that your customers always get an optimal view of your displays from any angle while hiding messy wiring.

Smart Stretched Display Series

BH380ID / BH240IT / BH350IT

Available sizes: 24", 28", 35", and 38"

Clear images in every light

Our smart stretched displays are built with high performance, anti-reflective glass and deliver 1000 nits of brightness, ensuring striking colors and clarity even in the brightest parts of your store.

* Supported by: BH2401, BH3501, BH2801, BH3801, BH2801N, BH3801N, BH2401T, and BH3501T

BH2401T / BH350

Better on both sides

Your shelves are double-sided, why not your signage? Our double-sided smart stretched displays are bound to capture your shoppers' attention on either side of the aisle.

* Supported by: BH3801D

Touchscreen interactivity

Break the boredom. Make shopping more amusing with highly interactive POP displays that are both informative and fun.

* Supported by: BH2401T and BH3501T

4K Smart Signage Series

ST6502

Available sizes: 43", 55", 65", 75", and 86"

Picture-perfect produce

With crisp 4K UHD resolution, our displays are sure to make all your products stand out.

T6502

X-Sign

No content? No problem. With the X-Sign system, you can create, schedule, and display content as easily as posting on social media.

X-Sign Designer

You don't need to be an expert to create original content. We provide an extensive library of customizable templates you can choose from. All you need to do is enter your text or import multimedia files. You can even make them interactive by adding links on the screen. And for any changes—like new products, price updates, and whatnot—you can conveniently push them out in real time.

X-Sign Manager

You've got the power. With X-Sign Manager, all the content for all your displays is at your fingertips. If Designer lets you customize the visuals, then Manager lets you control when and where they're published and how often people get to see them. It even lets you track how your customers interact to your content.

Custom playlists

Control the media playback on all of your displays by either creating scheduled content playlists or pushing out real-time content for live promotions.

Central management

Monitor and maintain all your local and remote displays through one simple management console.

Engagement monitoring

Find out how your customers interact with your content. X-Sign Manager collects and summarizes all engagement data for all your displays.

X-Sign Player

Since our displays come with a built-in player, you don't need to buy an extra laptop or download additional software. You can directly stream content from X-Sign Manager or easily play files from a USB stick. You can also install X-Sign Player on iPads or Windows devices to ensure that content is uniformly displayed across all your in-store playback devices, regardless of their platform.

Device Management Solution (DMS)

BenQ DMS is the ultimate management solution for all your displays and signage. Whether you want to mount a single display in a coffee shop or install a multi-panel video wall in a mall, use DMS to maintain all your devices simultaneously, ensuring uptime and productivity.

Centralized device management

Monitor and remotely adjust the settings of your displays over the internet or a local network. This is especially useful when calibrating displays installed in hard-to-reach places. With DMS, you can also schedule when devices switch on and off to reduce wear and tear and overall power consumption.

Remote app management

Remotely install, update, and remove Android apps on your displays through DMS Cloud. This is especially helpful for retailers with displays installed in multiple locations.

Over-the-air (OTA) updates

Receive the latest firmware updates, patches, and app features to keep your displays secure and running smoothly at all times.

Key Features

Pantone Validated Smart Signage Series

SL4302K / SL5502K / SL6502K / SL7502K / SL8502K

- The world's first and only PANTONE® Validated digital signage
- M-Book mode for macOS matching
